

# TUALATIN VALLEY IRRIGATION DISTRICT

## newsletter

Autumn

August 2021

### RRA INFORMATION

Remember, if you own and/or lease a total of 240 or more acres you need to annually file RRA forms before you can receive Reclamation water. The important thing to remember is the 240 acres is not what you irrigate but what you own and lease as a total.

If you are a part owner of an entity and your portion of the entity and your owned and leased acres are over 240 acres you as an individual will need to file. Your filing is regardless of the entity already doing a form. Both forms will need to be on file. This information has been posted in the newsletter in the past. It is up to you to let TVID know that this may be the case for you.

Make sure your leases have the correct information on them. The Bureau of Reclamation can ask for a copy of the lease at any time to review them to verify that the information on the RRA form and the information on the lease are the same. Information the Bureau requires on the lease are effective date, term of the lease, not to exceed 10 years, must include the legal description, signed by all parties, date or conditions when payments are due and the amounts or method of computing payments.

#### NEW WEBSITE WITH ONLINE PAY OPTION

Look for the launch of our new website in August 2021! The new site is FULL of valuable information and resources, including: Important forms, dates & a new online bill pay option  
\*service fees apply\*

---

Also, a reminder that during the extended irrigation season ALL water users must order water prior to using regardless of the amount being used. The water order can be taken for a 7 day duration. Pipeline users need to order **24 hours** and river users **48 hours PRIOR TO USING**. If you are wanting water during the weekend, you must call BY 4:30 on the THURSDAY prior to watering. In the event of a scheduled shutdown, we try to notify those who have ordered.

## Late Season

Regular irrigation season will end September 30th. If you would like to use water in October, or October and November, an extended irrigation season application needs to be filled out. This process applies to both pipeline and river users.

Enclosed in this newsletter is an application for the upcoming late season. The completed form and the appropriate amount of money need to be at the TVID office by the *September 20th* deadline.
